

# Jessai Maya

I'm Web Developer, formed as a multidisciplinary digital artist mainly focused on aesthetics and performance. Through almost 10 years of professional experience, I've had the opportunity to continue improving and expanding my skills in developing enterprise solutions for clients in diverse industries, not only as a front-end developer but back-end and designer.

## Work Experience

### **Globant**

Oct 2019 - Current

#### *Web UI Developer*

Working with massive fin-tech companies, brings many challenges, from carrying legacy code to developing and integrating features with new technologies and frameworks following standards to deliver clean, tested, and well-documented code.

Following an agile methodology, the use of a version control system, having excellent team communication, and fulfilling the commitment to deliver are just my day-to-day.

### **EatIn App**

Mar 2019 - Aug 2019

#### *Fullstack & Designer*

Low time-consuming to develop a prototype to put into the market as soon as possible was the challenge in this startup.

Working as a full-stack in this company meant not only being a developer but a designer.

### **Kamikaze Lab**

Feb 2012 - Feb 2019

#### *Jr. Sr. Lead Web Developer*

Working over 7 years on this marketing agency in a fast-paced environment, constantly under pressure, delivering every week, brought me nothing but mastery, cunning, and quickness in my performance as a web developer.

I evolved as web technologies did. Starting as a junior I become a leader and co-director of the R&D department focused to offer our team new tools that improved their development experience.
